I-75 BRENT SPENCE BRIDGE
INTERSTATE 75, COVINGTON, KENTUCKY
TENTATIVE DECISION TO APPROVE A CORRECTIVE MEASURES
IMPLEMENTATION PLAN
EPA ID #KYD 985 081 421
AI #48294**

The Kentucky Energy and Environment Cabinet (The Cabinet), Division of Waste Management (KDWM), has tentatively decided to approve the Corrective Measures Implementation Plan (The CMI Plan) for the Kentucky Transportation Cabinet I-75 Brent Spence Bridge (the Bridge) property. The CMI Plan includes a proposal for excavating lead contaminated soils from the property. The project contact is Chris Cummins, who may be reached at (502) 564-7250.

Why does the Kentucky Transportation Cabinet need to perform corrective measures?

The purpose of the CMI Plan is to provide details of how the contaminated areas are remediated and/or managed to be protective of human health and the environment. Kentucky Transportation Cabinet contractors sandblasted paint from the Bridge in 1989 and lead-bearing paint was dispersed throughout the surrounding area. Wastes present at the site that needed to be remediated included soil contaminated with lead. The CMI Plan describes how contaminated soil was excavated and disposed of.

How can I tell the Division what I think about this tentative decision?

The Cabinet encourages public involvement and welcomes comments. Anyone wishing to comment on this tentative decision should submit comments to the Cabinet on or before April 27, 2009, the close of the public comment period. Electronic comments should be submitted to kelly.neal@ky.gov or mailed to: April Webb, P.E., Branch Manager, Hazardous Waste Branch, Division of Waste Management, 200 Fair Oaks, Frankfort, KY 40601, (502) 564-6716.
